PUBLIC MEETING

Administrator Perry reviewed the updated portions of Chapter 10 Parks and Recreation of the City Comprehensive Plan with the Commission. He introduced the “Master Plan” which would be a living document that works with the Comprehensive Plan. The Master Plan would list all city parks and provide a list of all structures in the park with recommendations on improvements. The fair board and county owned buildings were also talked about.

The Commission discussed how the new baseball field at the high school has made the city park field no longer needed as a “regulated” baseball field. The city park field is only used a few times a year and on an occasion, it is used for practice. Discussion of some changes for upkeep of the field was talked about. One of these ideas is to have an access road where the field is constantly having issues and also so it does not get torn up when the fair is here.

There was discussion of the new skater park which is to be located by the high school. Administrator Perry asked each member to visit the parks and think about how to update the master plan. Certain items must be listed for grant funding availability.
